EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michelle LeCointe on March 15, 2006.

The application has been amended as follows:

Claims 2-6 and 62 have been cancelled.

Claim 63 (currently amended). An isolated nucleic acid comprising a [promoter having a] fragment of sequence of SEQ ID NO:1 [which is capable of stem-specific promoter activity], wherein said fragment [the JAS promoter] has stem-specific promoter activity.

Claim 64 (currently amended). An isolated nucleic acid comprising a [JAS promoter having a] fragment of sequence of SEQ ID NO:1 [which is capable of stem-specific promoter activity] and an exogenous nucleic acid, wherein [the JAS promoter] said fragment has stem-specific promoter activity and wherein said fragment is operable to drive stem-specific expression or transcription of the exogenous nucleic acid.

The above amendments were made to overcome enablement issues of record and to further clarify the claimed invention. Fragments having promoter activity is enabled because it is routine for one skilled in the art to truncate promoters in expression systems and determine which fragments would retain promoter activity.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet.

The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.

For all other customer support, please call the USPTO Call Center (UCC) at 800-786-9199.
